

# CAM SWITCHES JZE WITH EUROLOCK LOCK

# SEZ<sup>®</sup>

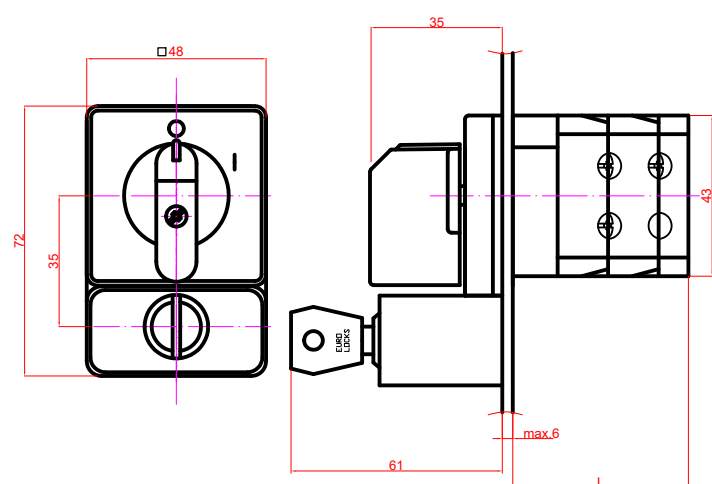

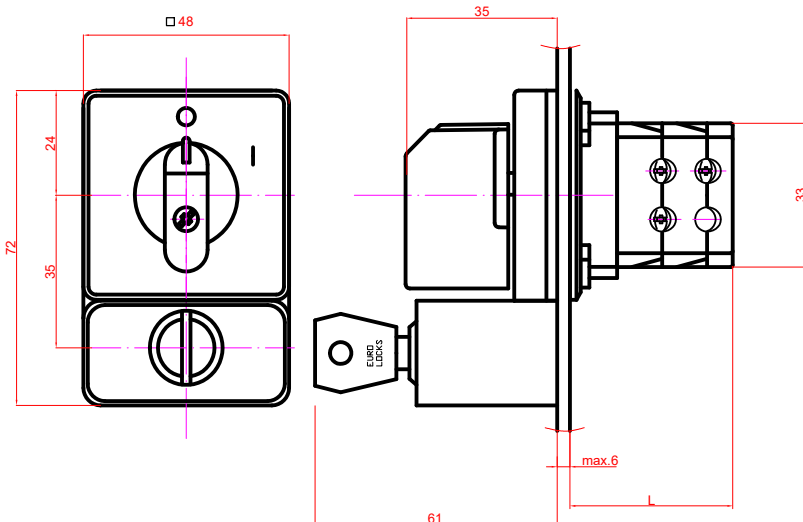

## We present the innovative cam switches JZE with EUROLOCK lock, ranging from 6 to 40 A.

- This switch expands the range of existing JZ switches with FAB locks and fully replaces this series.
- The EUROLOCK lock meets all the requirements of our clients and, thanks to greater availability and easy installation, can provide the same quality as FAB locks at a more favorable price. We also offer cam switches of the new JZE series with the "master key" option.

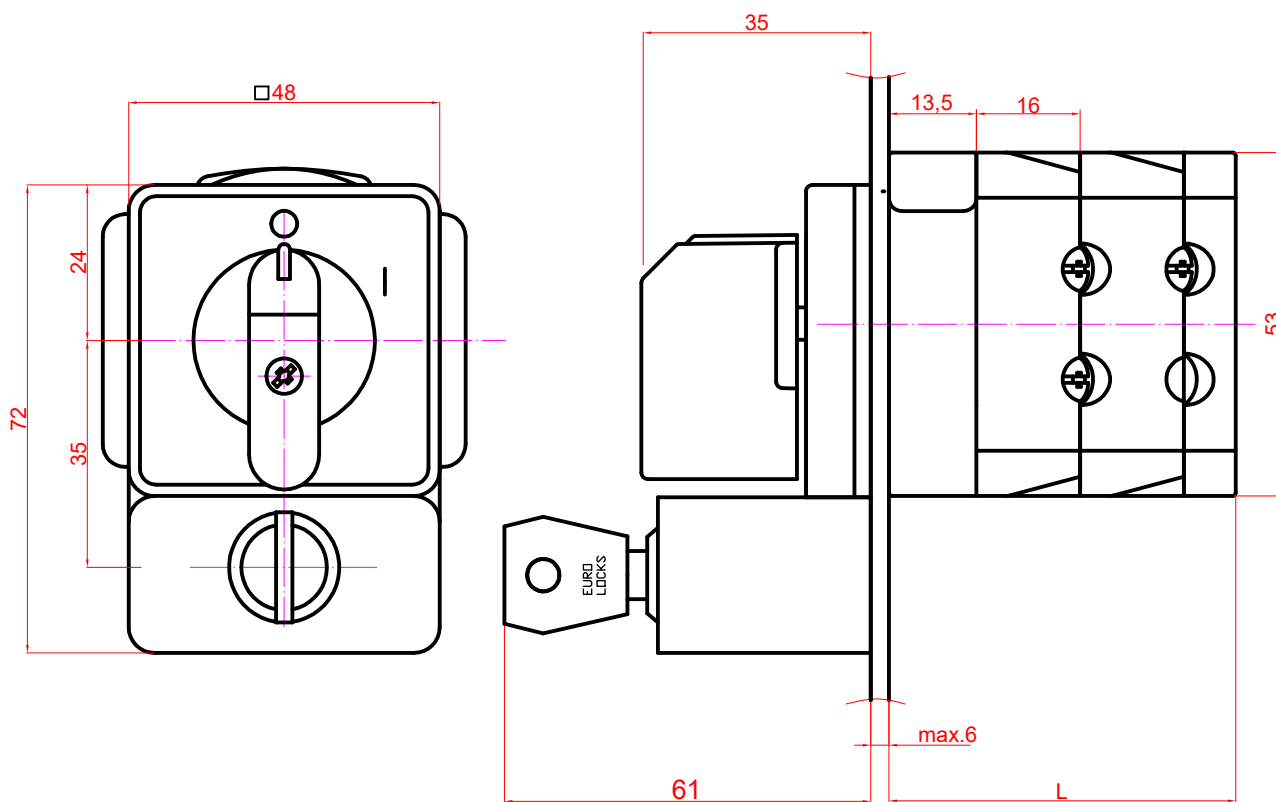

S 6,10 JZE

S 16, 25 JZE

## S32,40 JZE

Type	L for the number of chambers											
	1	2	3	4	5	6	7	8	9	10	11	12
